

The report of the EU type-examination
№. R.ITT.43.56.6.3.244.PPE.2534 Date of issue: 11.10.2018
 (Issue I)

1. Name and address of the manufacturer

Automax Industrial Ltd.
 Nr 75, Baowang Road, Gaoqiao Ind zone,
 Ningbo, 315174
 China

2. Identification of personal protective equipment

Filtering half mask to protect against particles

- 7020GD FFP2 NR D
- 7021GDV FFP2 NR D

3. PPE category: III

in accordance with the Annex I of the regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016 on personal protective equipment and repealing Council Directive 89/686/EEC

4. Visual description of the PPE

Filtering half mask type 7020GD FFP2 NR D and type 7021GDV FFP2 NR D is a complete, disposable device (limited to single shift use only), which is a respiratory protective device against solid and liquid particles.

The design of the half mask consists of the following basic elements:

- bowl made of four-layers filtering material,
- nose clip - plastic stripe (2 wires connected by plastic bridge) intended for shaping of a half mask top edge of under the form of nose bridge,
- head straps,
- internal nose sealing.
- exhalation valve (only type 7021GDV FFP2 NR D).

Filtering half mask type 7020GD FFP2 NR D

Filtering half mask type 7021GDV FFP2 NR D

5. Materials

	Material
<i>Bowl</i>	Four layers: external – polypropylene non-woven cover material (28 g/m ²), non woven bottom material – polypropylene (100 g/m ²), non-woven filter media material – polypropylene melt blown (60 g/m ²), internal – polypropylene non-woven bottom material (200 g/m ²)
<i>Valve</i>	Body - Polypropylene Membrane – Silicone (only type 7021GDV FFP2 NR D)
<i>Head straps</i>	Elastic rubber
<i>Nose sealing</i>	Polyurethane foam
<i>Stripe for bowl shaping</i>	Polypropylene

Detailed information regarding used for production of the PPE materials are presented in the Technical Files, archived in ITT CERTEX Sp. z o.o. (Ltd.).

6. Product marking

7. Technical file:

- a) Title of technical file: Manufacturing technical file for filtering half-mask – class FFP2 NR D
- b) Reference of the technical file: FFP2/7020GD-7021GDV/PPE-Reg/2018
- c) Date of issue: 17th of September, 2018

The technical documentation contains:

- a complete description of the PPE and of its intended use;
- an assessment of the risks against which the PPE is intended to protect;
- a list of the essential health and safety requirements that are applicable to the PPE;
- necessary drawings and descriptions;

- the references of the harmonised standards that have been applied for the design and manufacture of the PPE;
- the results of tests in so far as necessary for the verification of compliance with the essential health and safety requirements;
- reports on the tests carried out to verify the conformity of the PPE with the applicable essential health and safety requirements and the relevant protection class;
- a description of the means used by the manufacturer during the production of the PPE to ensure the conformity of the PPE produced with the requirements and to maintain quality level;
- a copy of the manufacturer's instructions and information;
- identification of production sites.

Note: Technical file and instructions for use for the EU type-examination are presented in English only.

SUMMARY

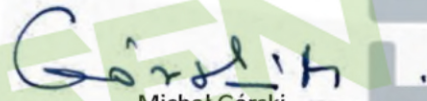

Carried out the conformity assessment process of the PPE named:

Filtering half mask to protect against particles, type

– 7020GD FFP2 NR D

– 7021GDV FFP2 NR D

certifies compliance with the essential requirements contained in Annex II of the Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016 on personal protective equipment and repealing Council Directive 89/686/EEC and the requirements of the harmonized standards referred to in section 9 of this report.

Michał Górski

President of Board

Łódź, 11th of October, 2018
